5/24/2007

Dear Vicky Liu,

You are listed as the contact for the above referenced TCB application. The following items need to be addressed before the review can be continued:

1. The Operational Description indicates that this card can be configured to operate on any of 14 available channels. How is the operation restricted to prevent the users from accessing frequencies/channels for which FCC approval is not issued?

Ans: Please find the attachment which is revised the Description of Operation. There has additional of Remark #1 and #2 on P1 and P2.

2. Please confirm that this device uses only Spatial Multiplexing MIMO in which the elements are always driven incoherently at each frequency.

Ans: Yes, it is.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
