Subject: Final version of manual to upload to existing filing

Dear easadmin,

I have received the final version of the User Manual for FCC ID: J9C2NET. This manual needs to be uploaded to the appropriate filings.

In addition, the draft manual and attestation letter (attesting that Qualcomm will provide the final version of the manual) will need to be superseded.

Please could you place the related filings into audit mode to allow me to update the application?

Thanks,

Mark

Hello Mark,
What are the changes to the manual and do any changes to the user manual affect the grant?
Thanks

Hello,

The manual has been updated to include information required by the FDA/IEC 60601-1-2 related to the product being considered a medical device. No changes were made that would affect the grant conditions.

All the appropriate FCC statements remain in the document.

Regards,
Mark
