Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: J9CGOBI2000-D (Original Grant date: June 24, 2009)
Applicant: QUALCOMM Incorporated

Dear Sir/Madam:

QUALCOMM Incorporated is submitting an application for Class II Permissive Change to the Mini-PCIE wireless WAN card, model Gobi2000 (FCC ID: J9CGOBI2000-1D).

There is no hardware or electrical modification made to the applying modular transmitter itself, and the two-way authentication methodology remains the same.

The change filed under this application includes the following changes:

1. Adds new collocated FCC IDs for mobile hosts and defines collocated transmitter requirements where future collocated transmitters and mobile hosts may be added per the rules defined in Section 7 of KDB447498 as supported by the submitted mobile RF safety analysis.
2. The change filed under this application is adding notebook model Inspiron 1011 (PP19S) collocated with FCC IDs QDS-BRCM1030, QDS-BRCM1031, MCLBCM92046.

All mobile and portable notebooks allow end-user installation. Two-way Authentication is documented in this application.

We hereby certify that no party to this application is subject to a denial of benefits, including FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C.853(a).

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

John Forrester
Engineer, Senior Staff
