Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: J9CGOBI2000-H (Original Grant date: April 6, 2009)  
Applicant: QUALCOMM Incorporated

Dear Sir/Madam:

QUALCOMM Incorporated is submitting an application for Class II Permissive Change to our Mini-PCIe wireless WAN card, Gobi2000 module (FCC ID: J9CGOBI2000-H). This product was initially certified by the Commission on April 6, 2009 under the FCC ID: J9CGOBI2000-H.

There is no hardware or electrical modification made to the applying modular transmitter itself.

The purpose of this Class II Permissive Change is to authorize the Gobi2000 module for installation in HP model HSTNN-I82C slate computer.

Also please note in reference to KDB 434642, regarding the discussion concerning the permanent warning statement label in order to satisfy RF exposure requirements, model HSTNN-I82 will have an external label with the following wording: "CAUTION: This device must be used with the supplied cover to satisfy FCC RF exposure compliance requirements. See manual for details."

A J9CGOBI2000-H Class II Permissive Change History table is included with this cover letter.

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

John Forrester  
Engineer, Senior Staff  
QUALCOMM Incorporated
