

## Display Orientations Test Summary

This document provides a summary of test orientations used for HP slate computer model HSTNN-I82C.

Of the five possible display orientations for model HSTNN-I82C slate computer (see Figure 1), only two were evaluated for RF exposure compliance. Table 1 summarizes the display orientations and provides test rationale.

**Figure 1 – Slate computer display orientations**

**Table 1 – Display orientation test summary**

Orientation	Tested	Rationale
Lap-held	Yes	Display orientation enabled, user separation distance = 12 mm
Primary Landscape	Yes	Display orientation enabled, user separation distance = 40 mm
Secondary Landscape	No	Display orientation disabled via software
Primary Portrait	No	Display orientation disabled via software
Secondary Portrait	No	Display orientation enabled, user separation distance > 20 cm (mobile)
