Frank Coperich:

This e-mail will be printed to disk using PDFWriter and submitted as an attachment pdf file via the filing submissions Webpage. It is also being sent to you directly in parallel so that we will have a record of what was submitted. My responses to your comments are interleaved below (in blue italics) so they may be more readily discerned.

>The issue regarding the status of Items 1 thru 8 of your confidentiality request letter remains unresolved.

>In general, test data and test procedures do not qualify for Confidential status.

>Installation manuals and users manual may be eligible for Confidential status if there is a non-disclosure agreement with the party which is in possession of the manuals.

>Please further address this remaining Confidentiality issue.

>Also, as cited in this Form letter - please reply to this message using the EAS Correspondence # when uploading Exhibits.

We withdraw our request for confidentiality of items 1 through 8 of our DFUT confidentiality request letter.

Note please that similar files (test plans, test reports, and a copy of the Globalstar System Description) were provided for each of the 5 Globalstar UT filings (DFUT: EA94247, SMP UT: EA94445, TMP UT: EA94735, AFUT: EA94736, and Car Kit: EA94778). We also hereby withdraw the request for confidentiality for those attachment files for each of these Globalstar UT filings.

It is hoped that by so stating now, we can minimize the review time for those UT filings for which we have not received formal FCC comments, but which logically would reflect the comments to the DFUT and TMP filings.

>The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60

days of the original e-mail date may result in application dismissal pursuant to Section 2.917 (c) and forfeiture of the filing fee pursuant to section 1.1108.

>DO NOT reply to this e-mail by using the Reply button. In order for your response to be processed expeditiously, you must upload your response via the Internet at www.fcc.gov, Electronic Filing, OET Equipment Authorization Electronic Filing. If the response is submitted through Add Attachments, in order to expedite processing, a message which informs the processing staff that a new exhibit has been submitted must also be submitted via Submit Correspondence. Also, please note that partial responses increase processing time and should not be submitted.
