FEDERAL COMMUNICATIONS COMMISSIONS
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: FCC Class II Permissive Change Request of FCC ID: J9CGSSDVM.

This letter is a request that Qualcomm submit a Class 2 Permissive Change Request to the FCC for the GSP-1720, for implementation of the GSP-1720 into the Second Wind Nomad 2 product. The level of spurious emissions, while compliant with the standard, are sufficiently different from the original filing that a Class 2 Permissive Change is required by the FCC.

This request is being sent by Qualcomm on behalf of Second Wind, Inc.. Second Wind, Inc. is a product developer using the GSP-1720 made by Qualcomm, and Bay Area Compliance Laboratories (BACL) is being used to obtain FCC Part 25 certifications.

It is our understanding that NDA's are already in place between Qualcomm and BACL. Please establish direct communication with the following point of contact at BACL for the purpose of providing the requested documents at your earliest convenience
Sincerely,

A handwritten signature in black ink, appearing to be "Paul Jayne". The signature is stylized and somewhat abstract, with overlapping loops.
