

## **Single-Mode Portable UT User Guide (80-98154-1 X2) Errata Sheet Input**

Modifications to Correct Maximum Radiated Power Value, in Safety Issues Section:

### **Radio frequency energy:**

Change title of subsection to read: "Radiofrequency energy."

Change last sentence of first paragraph to read: "The power level can range from 0.01 watt to a maximum of 1.0 watt, with 0.4 watt being the typical full power level. "
