Request for Confidentiality

April 15, 1999

Pursuant to the Sections 0.457 and 0.459 of the Commission's Rules, Qualcomm Incorporated hereby requests confidentiality of certain aspects of the information accompanying this Application for Type Acceptance as specifically identified below:

1. Technical Description , Appendix A
2. System Block Diagram , Appendix B
3. Circuit Diagrams and Parts Lists, Appendix C
4. Installation Manual , Appendix D

All items contain trade secrets and other proprietary information not customarily released to the general public. Public disclosure of this information would be harmful to Qualcomm Incorporated at this time, and would provide unjustified benefits to our competitors. These materials contain proprietary intellectual property, and Qualcomm is on the process of filling for patent protection on many of these items. The request for confidentiality on the Installation Manual (Appendix D) at this time is due to licensee testing which will be conducted after the grant is issued but before the product is released to the general public. Release of the installation instructions before formal release to the general public would expose proprietary information concerning advanced operation functions. Once the product is released to the general public the FCC will be informed the confidentiality treatment of the Installation Manual may be removed. Qualcomm understands that pursuant to Rule 0.457 disclosure of any information contained in this application will not be made before the date of grant.

Regards,

Keith A. Goshia
Senior Regulatory Engineer
