

2 Attestation Statement

The Terrestrial Communications Unit (TCU), QUALCOMM Model TCU-PCS-1900 (FCC ID: J9CTCU-1900), is a mobile station of the Terrestrial Mobile Communication Terminal (TMCT) system for voice or data communicate with a fleet management center and other business and personal sites through a terrestrial network.

The equipment is in full compliance with all parts of ANSI J-STD-008, Personal Station-Base Station Compatibility Requirements for 1.8 to 2.0 GHz Code Division Multiple Access (CDMA) Personal Communications Systems, issue August 1995.

The equipment complies with uncontrolled RF exposure environment requirement by the IEEE STD C95.1.

The data, data evaluation and equipment configuration represented herein for equipment certification are a true and accurate representation of the measurements of the sample's radio frequency interference emissions characteristics as of the dates and at the times of the test under the conditions herein specified. This applies to all tests that do not require an Open Area Test Site (OATS) to perform. Test that required an OATS site was performed by TUV Product Services.

Equipment Tested: Terrestrial Communication Unit (TCU)

Part Number: 10-53701-1

Series Number: 0000000200

Dates of Test: September 12 – 30, 1999

Test Performed by: Fang Han, Senior Engineer
