Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: J9CUNDP-1L
Applicant: QUALCOMM Incorporated

Dear Sir/Madam:

QUALCOMM Incorporated is submitting an application for Class II Permissive Change to the Mini-PCIe wireless WAN card, model UNDP-1 (FCC ID: J9CUNDP-1L).

There is no hardware or electrical modification made to the applying modular transmitter itself, and the two-way authentication methodology remains the same.

The change filed under this application includes the following changes:

1. Adds collocation with FCC ID FCC ID:PD9533ANXMU for the X200T Tablet. A RF exposure evaluation is included in the filing to address collocated SAR considerations.
2. Adds additional collocated FCC IDs for mobile hosts and defines collocated transmitter requirements where future collocated transmitters will be added as Class I changes as supported by the submitted mobile RF safety analysis.
3. Adds additional collocated FCC IDs for portable hosts and defines collocated transmitter conditions where future collocated transmitters will be added as Class I changes as supported by the submitted portable RF safety analysis.

We hereby certify that no party to this application is subject to a denial of benefits, including FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C.853(a).

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

John Forrester
Senior Staff Engineer
