**Re:    Applicant:    SCA, Inc.**  
**FCC ID:        JCA-SPAV01M, JCA-SPAV01H, JCA-SPAV01HH**  
Application for Certification under Part 15.109

TCB Committee,

On behalf of SCA, Inc. we request Certification of the Sceptar VHF synthesized paging and monitor receiver in three operational frequency bands noted below. The VHF Sceptar pager is a monitor paging receiver intended for reception of voice communications on one of two discrete RF channels.

We request this Certification to include the three operational bands under individual FCC Identifiers, as follows:

**Sceptar VHF Pager**

<b>FCC Identifier</b>	<b>Model No.</b>	<b>Band of Operation</b>
JCA-SPAV01M	SP-AV01BM	(150-157 MHz)
JCA-SPAV01H	SP-AV01BH	(157-166 MHz)
JCA-SPAV01HH	SP-AV01BHH	(166-175 MHz)

The required exhibits supporting this application are submitted along with this request for Certification. Please let me know if we might provide any further information in support of this request for Certification under Part 15.

Best Regards,

Rod Munro

Agent, SCA, Inc.
