RE: FCC ID: JCK-GN-WLBZ201_ATCB000884

Attention: Ellis Wu / Stephanie Hung

I have a few comments on this Application.

1. On page 16 (last page) of the user manual it states that the device can operate on different channels than allowed for US operation. Please verify/attest that the device, as sold in the US, does not allow the user any software or hardware selection capabilities of non-US channels.
2. Some of the power drifts shown in the plotted data and that shown in the SAR data table on page 16 do not agree. Some of these differences are as great as 7 to 9 %. (i.e. page 37 (first plot) exceeds the recommended 5% and does not appear to match the listed -2.28% drift in the SAR result table shown on page 16. Page 45 plot exceeds the recommended 5% and does not appear to match the listed -2.28% drift in the SAR result table shown on page 16.) Please explain.

Dennis Ward
