RE: Giga-Byte Technologies

FCC ID: JCK-GN-WLM01

I have a few comments on this Application.

- 1.) The Schematics were inadvertently uploaded to the RF Exposure section of the report.
- 2.) This device is a PCMCIA card with integral antenna for general use. Therefore the "Mobile" category is inappropriate for this equipment. In addition, the power is in excess of 60mW/f(GHz) at this frequency band. Therefore, MPE estimation is not allowed. Please supply a SAR report.
- 3.) Please be advised the Manual will have to be revised showing the SAR values in body contact position for this device.

William H. Graff
President and Examining Engineer
