RE: FCC ID: JCK-GN-WLMR101_ATCB000376
Attention: Ellis Wu

I have a few comments on this Application.

1. Please note that any device over 100mW either in conducted or EIRP power such as this requires SAR testing in three hosts. The patch antenna has a gain that puts the EIRP of this device over the 100mW limitation. Please provide SAR data showing compliance in three laptops. These laptops need to be different models from each other.
- 2.
