Dear Doug,

Here's the reply.

1. Operational descriptions state the EUT is MIMO. Please confirm how many RX in and how many TX out for MIMO. Please kindly revise operational description to include this information.
[\[Reply\] Please refer to revised operation description.](#)
2. Test setup photos in SAR test are too dark to see. Please kindly revise so pictures are bright and clear.
[\[Reply\] Please refer to revised SAR report](#)
3. Please show in internal photos which transmitters transmit simultaneously. Do these transmit in tablet mode as well? Please kindly revise to include this information.
[\[Reply\] Please refer to revised internal photo. WLAN & BT can transmit simultaneously in tablet mode.](#)
4. Please show in internal photos the exact distance from each transmitter to its antennas. Please show this in laptop mode and in tablet mode. Please kindly revise photos to include these measurements.
[\[Reply\] The distance already added in internal photo.](#)
5. Please state what you are certifying with this application? Are you applying for certification for the WLAN or are you seeking certification for the computer using other certified modules such as WWAN, WLAN and BT? Please explain what this application is for? Is it for computer with transmitters inside or is it for WLAN card that is going into computer?
[\[Reply\] This application is only for DTS \(2.4GHz WLAN\), the bluetooth module already certificated \(FCC ID: TLZ-BT253 \). The WWAN antenna isn't use in this application, it's only for backup and may use in future application.](#)
6. If this application is using other certified modules please state which modules are being used along with the FCC IC numbers and what it wanted with this application in a cover letter.
[\[Reply\] Certificated bluetooth module, FCC ID: TLZ-BT253\).](#)
7. The label photo shows the label on a removable cover on the underside of the laptop. This is not allowed by the FCC. Please revised label location to a permanent irremovable part of the laptop.
[\[Reply\] The label location already revised.](#)

BR,
Natasha

Dear Doug,

The revised documentation has uploaded to website, please kindly check.

This application is only for DTS (2.4GHz WLAN), the bluetooth module already certificated.
The WWAN antenna isn't use in this application, it's only for backup and may use in future application.

BR,
Natasha
