

TEST SETUP PHOTOGRAPHS

This document contains 5 photographs

Photograph No.1
In-band emissions and spurious emissions field strength measurement setup
below 30 MHz in the anechoic chamber

Photograph No.2
Spurious emission measurement test setup from 30 MHz to 1000 MHz
in the anechoic chamber

Photograph No.3
Frequency stability measurements setup

Photograph No.4
Setup for conducted emission measurements at the EUT power port

Photograph No.5
Setup for conducted emission measurements at the EUT power port
