

Operational Description

This device is a NCR Orderman Base Station4. The transmitter of the EUT is powered by DC 12V from power adapter or DC 48V from POE.

The antennas provided to the EUT, please refer to the following table:

Antenna No.	Model No.	Antenna Gain(dBi)	Frequency range (MHz ~ MHz)	Antenna Type	Connector Type
1 (Standard)	497-0503602	2.15	902 - 928	Dipole	RP-SMA
2 (Optional)	PCG-TNC-921	2	880 - 960	Dipole	RP-SMA

From the above antennas, **Antenna 1** was selected as representative model for the test.

For more detailed instruction, please take a look at the user's manual.
