Dear Diane:

The following are Alcatel's responses to the questions presented in your recent e-mail, dated September 29, 2005:

- 1, The confidential box was checked. Please verify if you would like any of the exhibits to be held confidential.
- 2, Please submit a formal confidentiality request letter from the applicant (or agent) specifying those exhibits you wish to have held confidential.
- 3, Justify why these exhibits need to be withheld from the public.

Response:

There are four documents that we are requesting confidentiality:

1. **Block Diagram**
2. **Schematics**
3. **Part List**
4. **Operational description**

These documents provide technical details of Alcatel's designs and could jeopardized Alcatel's design practices and procedures. Alcatel would like to protect its designs for competitive reasons.
