Re: FCC ID/IC Certification Label: JFZT3202EE1/1752B-T3202EE1

Dear Sir/Madam:

The FCC ID/IC Certification Label is located under the battery cover of the subject device because it is used for live events where additional labels on the outside of the device might be distracting to the presenter or audience members.

The device requires initial battery placement to be functional and frequent battery changes where the said FCC label can easily be viewed by end-users.

Sincerely,

Fumio Kamimura  
General Manager, Engineering Planning Division  
Audio-Technica Corp.
