RE: Perfect Toys International Co., Ltd

FCC ID: JHPSPORT-F1

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please open the Parts List supplied for this device and refer to the last page. It appears that this device is planned to operate on several different frequencies within the 27MHz band. Please confirm which frequencies will be offered in North America. If more than just 27.145 MHz then additional data shall be necessary, specifically band edge data at the lowest and highest operating channels.
- 2.) Please note that if more than one channel shall be utilized, then an updated Form 731 shall be submitted.
- 3.) FYI: The font used in the Parts List and also the Test Report [page 7 of 8] is very difficult to read. Please be careful and take pity on my eyes.
- 4.) The Schematic, Operational Description and Block Diagram are covered under the Confidentiality letter, but not the Parts List. Please confirm if this is acceptable to the Applicant.
- 5.) The FCC's contact of record for Perfect Toys International is Mr. Lo Ting Ching. This is not individual who has signed the 731 form, nor is it the individual who has signed the Agent Authorization form. In addition, we have no understanding of who is "Xian Hao Electric Appliances and Toys, Dong Guan City, Guang Dong, China" and their relationship to "Perfect Toys International". The FCC database must be accurate and contain all revised contact information relevant to any radio product Certification. Please update the contact information associated with Grantee code "JHP".

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
