Diane Poole
FCC OET

Dear Diane,

Please regard the FCCID JLF-HS1 EA835321 HeadOn head set electrical schematic and block diagrams confidential. The system uses a proprietary design which is a company secret. If competing companies could access the design it would undercut a deal with a national distributor and cripple the business. Neither item is available to anyone outside the technical team on the project.

Sincerely,

A handwritten signature in black ink, appearing to read 'K R K', with a long horizontal stroke extending to the right.

Kyle R. Kowalczyk
President
