Re: Request for Class II Permissive Change

Enclosed is an application and exhibits for a Class II Permissive Change of remote control transmitter Model PIRV400R, which is manufactured by The Chamberlain Group Inc.

The original Date of Grant JLFPIR2 was September 15, 2004.

The transmitter referenced in the original test report as "The Reporter Voice" model JLFPIR2, is identical to Model PIRV400R. Both the model number and the FCC identifier are molded into the plastic case bottom...

We have made product improvements that included a change in the IC chip. The new schematic is part number PIRV Rev.2 - the frequency range has been extended to operate in the 902 – 928MHz range. The previous model operated at 916.5MHz. Enclosed are the standard attachments along with the new report data from ULEMC.

Also, please apply the Confidentiality Request of the original submission to this application. Please include the schematic, block diagram, and theory of operation as part of the confidentiality request.

We would appreciate your prompt attention to the submittal.

Sincerely,
THE CHAMBERLAIN GROUP, INC.

A handwritten signature in black ink that reads "Barbara P. Kelkhoff". The signature is written in a cursive style.
