

Federal Communications Commission
Equipment Approval Services
P.O. Box 358315
Pittsburgh, PA 15251-5315

Subject: FCC Part 15 Certification of **Innovative Control Systems, Model S-TAD**

FCCID: JM7-IGWT-662008

To The Commission:

We are requesting the **following exhibits be treated as confidential** per 0.457 and 0.459 of CFR 47, as they contain trade secrets and/or information that might compromise our security system designed to prevent the abduction of infants:

662008 Block.pdf (contains functional block diagram)
662008_Operational.doc (contains the transmission scheme and data protocol)
662008 TX Partlist.xls (contains transmitter part list)
662008A_S-TAD_Sch.pdf (contains the schematic diagram)
662008 Transmitter Info.doc (contains transmitter information answers)

In addition, we respectfully request that any documents created by the submitting lab, on our behalf that are not required to be publicly disclosed be considered confidential and not made available to the public. We further request that if a document, or a portion thereof, is required to be released to the public, that only those parts that are required, be released in part, and not the entire document released.

Please defer the following documents release for 45 days:

662008_FCC_Pics.pdf (contains internal pictures of assemblies)
IM236_06withS-TADonly.pdf (contains the draft user's manual)

The following exhibits **do not need to be treated as confidential**:

662008 ID Label-Locations.doc (contains labels and/or locations)
662008 RF Exposure.doc (contains the RF exposure statement)
662008 Form 731 (00-TB-F0030).doc (contains form 731, required for filing)
662008-Confidentiality.doc (this document)

Please contact me if you have any questions or need additional information.
