RE: On Track Innovations Ltd.

FCC ID: JNX-OTI-SAT5000

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) The schematic for the RF appears to show several elements around the antenna that do not show the component values. Please explain or correct as necessary.
- 2) The device itself appears capable of mounting on the wall or using on a table top. If this is expected then it should have been tested while oriented in both these orientations following typical orientations specified by ANSI C63.4. The report does not appear to support this. Please review.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
