Subject: JNX-OTI-Saturn application

**FCC ID: JNX-OTI-SATURN**

**In reply to e-mail dated November 6, 2002  
(submitted via the second (old) server)**

Dear Mr. Johnson,  
Below are the answers to your questions.

1. The additional testing of the device as PC peripheral has been performed. Please find the test report submitted via "Add to existing application", Test report folder on January 6, 2003.
2. Please find the revised label (Saturn FCC Label new.pdf), submitted via "Add to existing application ", Label location folder on January 6, 2003. In addition please find the corrected User Manual, submitted via " Add to existing application", Users Manual folder on January 6, 2003.
3. Please find the answer of On Track Innovations: *"For some applications we plan to use the Saturn reader with an external antenna (which will be connected to this BNC). The exact antenna/s characteristics are under consideration now. We plan to certify this version in the near future. "*
4. Please find the customer declaration stating the use of ferrite, submitted via "Add to existing application ", Additional information folder on January 6, 2003.

With great respect,  
Valeria
