Antenna Spec & RF Spec

MERRY Sounds Excellent

Presented by : Merry RF

Date : 2022.11.15

Table of contents

- RF antenna spec

RF antenna spec(A00179)

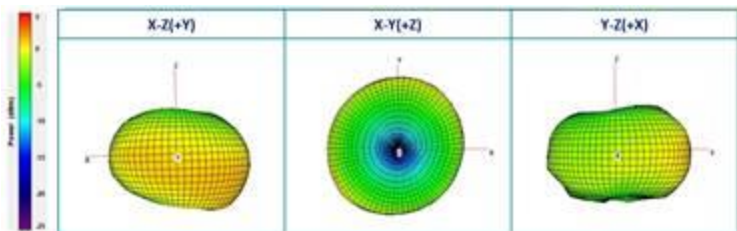

A00179 **Dongle** Antenna for 2.4GHz

- 1) Antenna Material : PCB
(Antenna Type : Monopole Antenna)
- 2) Operating Frequency : 2.4GHz-2.5GHz
- 3) Input Impedance : 50Ω
- 4) Standing-Wave Ratio : 2:1
- 5) Antenna Gain : 2.0 dBi
- 6) Polarization Type : Linear polarization
- 7) Connect Type : Printed

RF antenna spec(A00179)

A00179 **Dongle** Antenna for 2.4GHz

8) Antenna pattern (2D or 3D):

9) table of calibrated :E5071C ENA Vector Network Analyzer – Keysight

Calibration Date: 2022/02/14

10) names of test personnel : Oscar Chu

11) **Test date:2022/9/7**

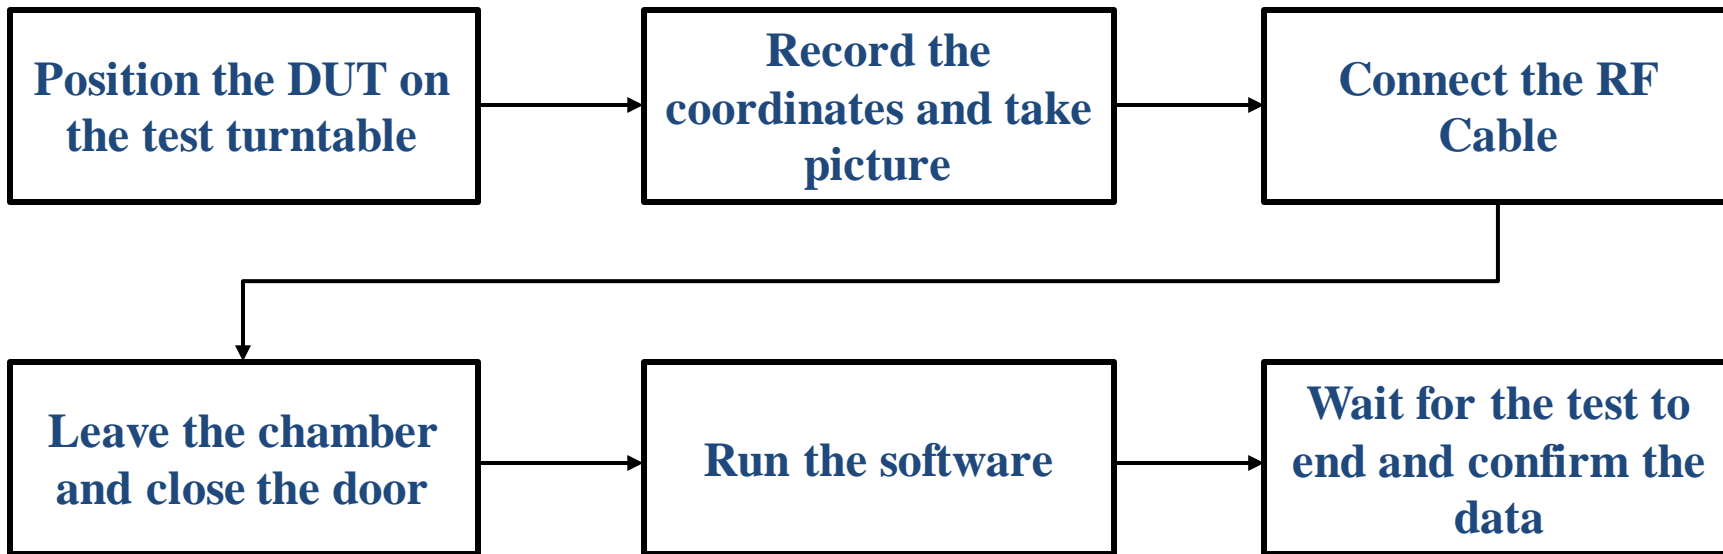

RF antenna spec(A00179)

A00179 Dongle Antenna for 2.4GHz

12) names of commercial test software being used :
ETS-Lindgren EMQuest

A00179 Dongle Antenna for 2.4GHz

13) description of how measurements are made:

Thank You

Delivering Fidelity Sound to Enrich Human's Life
