

FCC statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Warning: Where shielded interface cables or accessories have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC. Changes or modifications to product not expressly approved by Logitech, Inc could void your right to use or operate your product by the FCC.

Radiation Exposure Statement:

The wireless product complies with FCC and IC radiation exposure limits for portable devices.

IC statement: CAN ICES-003 (A) / NMB-003 Class (A)

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cordless (Radio Transmitter) products: RSS-247 (2.4 GHz transmitters or transceivers): This Category I radio communication device complies with RSS-247 of Industry Canada.

Déclaration IC: CAN ICES-003 (A) / NMB-003 Class (A)

Ce dispositif est conforme à la norme/aux normes CNR exemptes de licence du Ministère canadien de l'Industrie. Son utilisation est soumise aux deux conditions suivantes: (1) le dispositif concerné ne doit pas causer d'interférences et (2) il doit accepter toute interférence reçue, y compris les interférences risquant d'engendrer un fonctionnement indésirable.

Produits sans fil (émetteur radioélectrique): CNR-247 (émetteurs ou récepteurs 2,4 GHz): Ce dispositif à communication radioélectrique de catégorie I est conforme à la norme CNR-210 et du ministère canadien de l'Industrie.

Déclaration sur la radioexposition

Ce produit sans fil est conforme aux limitations prévues par la FCC et l'IC en matière d'exposition aux radiations des dispositifs portables.
