

## Description of Permissive Change

The application is prepared for FCC class II permissive change due to components shortage. The difference compared with original is modifying the parts of inductors (L1, L2, L3) and capacitors (C1, C2, C3, C4, C5, C6, C7, C9, C10, C13) size.

There are not any changes to the components' specifications and their electrically are the same as original one.

If have any question, please do not hesitate to contact us, thanks.
