Logitech® Wireless Keyboard K230

Logitech® Wireless Keyboard K230

The compact keyboard that brings fun to the basics

**Compact design,
designed to
look good**

Save space without missing a thing. The compact keyboard is about 36% smaller than our standard keyboards but still has all the standard keys—so doing the things you love is as easy as ever.

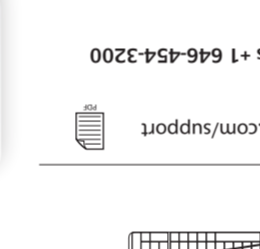

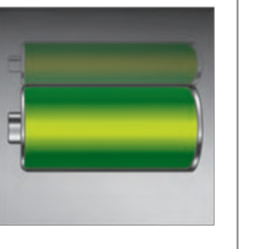

You'll enjoy virtually no delays or dropouts up to 10 meters (33 feet) away—even in the busiest wireless environments and auto-sleep, you can catch up on Facebook™, keyboard doubles as a little keyboard a little more "you". The battery door on top of the keyboard doubles as a sleek wireless mouse.

Powerful, reliable connections

Power up for years (2-year battery life)

Sleek style you can customize

Easy setup

Your laptop + Logitech = comfort

Yes, your laptop can be as comfortable as it is convenient. With Logitech laptop accessories you can create a custom-fit workspace that feels "just right." Pick the perfect mouse for typing, sweaty palms and accidental touchpad input. Your arms and wrists may thank you. ¹Typing accuracy may vary. ²Enter the calculator based on an average environment.
