### Unifying

Logitech® Unifying technology connects up to six compatible Logitech mice and keyboards to the same receiver, using only one USB port for multiple devices. To learn more, visit the Unifying product page.

### Visit the Product Page

While you're online, visit the Wireless Touch Keyboard Product Page, your destination for world-class support. In addition to software, you'll find tutorials, troubleshooting tips, and live forums.

### Troubleshooting

Touch Keyboard not working?

- Check to see you remove the battery tabs.
- Restart the keyboard by turning it off and then back on.
- Check if you have connected the Unifying receiver.
- Move the Unifying receiver to another USB port on your computer. (Try plugging the receiver directly into the computer instead of a USB hub.)
- Check the battery orientation. Replace the AA batteries.

Problem with gestures?

- Avoid resting unused fingers or your palm on the touch surface.
