

FCC ID and Logo Location on e-Label

KYOCERA CONFIDENTIAL

Electronic Label

How to access the information

Settings→About phone→Technical regulations conformity certification

The instruction is included in the User's manual.

-
- Never use modified au cell phones. Use of a modified device violates the Radio Law.
You can perform the following operations to confirm the unique authentication and standard marks (including certification/authentication numbers) for the product.
On the home screen, "Apps" [Settings]→[About phone]→[Compliance information].
This product has acquired the certification of conformity with technical regulations for the specified radio station based on the Radio Law, and the "Technical Conformity Mark" is checkable on the product as a certificate.
If the screws of the product are removed and modifications are made to the internal components, the certification of conformity with technical regulations will become invalid.
Do not use the product with the certification invalid, as it is a violation of the Radio Law.
-

C. Labeling for Importation and Purchasing

- The FCC ID and the DoC logo are printed on the package.

D. Other considerations

1. The above information must be programmed by the responsible party and the information must be secured in such a manner that third-parties cannot modify it.
- The above information is stored in the NVRAM mounted on the main printed circuit boards. Any third-parties and end user cannot modify it.
