Subject: Limited Modular construction for JPZ0097

Dear Sir or Madam,

The above referenced model complies with CFR Part 15, Subpart C, Section 15.212. The model is a complete RF transceiver with a permanently mounted antenna, oscillator, and power supply regulation.

1. The modular transceiver is constructed with its own RF shielding consisting of PCB shielding and a zinc mounting yoke.
2. Data rates are controlled by the RF module and inputs are buffered by an incorporated microcontroller.
3. The transceiver has its own power supply regulation.
4. The modular transceiver has a permanently installed, non-removable antenna.
5. The modular transceiver can function/ be tested in a stand alone configuration with the intended interconnect cables.
6. The final assembly of the product containing the modular transceiver is marked with "Contains FCC ID: JPZ0097".
7. The product containing the modular transceiver is assembled and controlled by the applicant Lutron Electronics Co., Inc.
8. The modular transmitter complies with all applicable RF exposure requirements in its final configuration.

Sincerely,

Robert Spehalski
Global Standards Leader
