

Antenna Specification

Applicable Model Numbers: (herein referred to as DUT)

RRD-PRO, HQRD-PRO, HQRA-PRO

Antenna construction: The antenna is a loop type on a printed circuit board. The antenna connection points are permanently attached to the DUT and cannot be modified or replaced by the user as it is underneath the plastic enclosure. For further information on Antenna construction please see Operational Description.

Frequency range capability: 431MHz-437MHz
