<u>Multi-ISO RFID Reader FCC ID: JQ6-5553</u>, is seeking FCC Authorization as a Limited modular transmitter. The EUT meets the requirements for Limited modular approval as detailed in FCC public Notice DA00-1407. Compliance to each of the requirements is described below:

## Questions are:

- 1. "The modular transmitter must have its own RF shielding.
  - a. Module does not have an RF shield.
- 2. "The modular transmitter must have buffered modulation/data inputs."
  - a. Yes, there is a buffer in the input.
- 3. "The modular transmitter must have its own power supply regulation."
  - a. No, the module is supplied power (5 Volts SELV) through an approved USB port.
- 4. "The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(c)."
  - a. Yes, the antenna complies with these sections.
- 5. "The modular transmitter must be tested in a stand-alone configuration."
  - a. Yes, testing was performed in a stand alone configuration.
- 6. "The modular transmitter must be labeled with its own FCC ID number."
  - a. Yes, the label has it's own FCC ID (JQ6-5553)
- 7. "The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacture must provide adequate instruction along with the module to explain any such requirements."
  - a. Yes, the User's Manual is supplied with the module.
- 8. "The modular transmitter must comply with any applicable RF exposure requirements."
  - a. Not Applicable due to the extremely low power output.
