Class II Permissive Change Request Letter

August 9, 2013

To:
Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road Columbia,
MD 21046 Attn: OET Dept.

RE: FCC PCII Certification Request for FCC ID : JQ6-MCLASSRPK40E

We are submitting an application for a class II permissive change to **FCC ID: JQ6-MCLASSRPK40E** (Original Grant Date: June 4, 2012).

There is no hardware or electrical modification made to the applying transmitter itself. The change to the design was the addition of the Magnetic Reader circuit and associated cabling. The cabling is located close to the LF and HF antennas and therefore the fundamental and spurious emissions must be evaluated to ensure compliance.

This device with the Magnetic Reader circuit will be given a new model number, RMPK40E.

We hereby certify that no party to this application is subject to a denial of benefits, including FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C.853(a).

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

A handwritten signature in black ink that reads "Robert Cresswell".
