

**Photos External  
Smart(ID & TRANS) Product Line of Proximity Card Readers  
for Regulatory Submittals**

The following photos show the product line and construction thereof.  
Each photo is descriptively labeled.

The internal CCA's may be placed in other plastic enclosures not shown in the photograph below – not affecting compliance.

From Right to Left (Products in Plastic Enclosures)

1. Mullion Reader
2. Mullion Reader with Keypad
3. Desktop Reader/Programmer
4. SmartReaderII V01.03 – used in every product

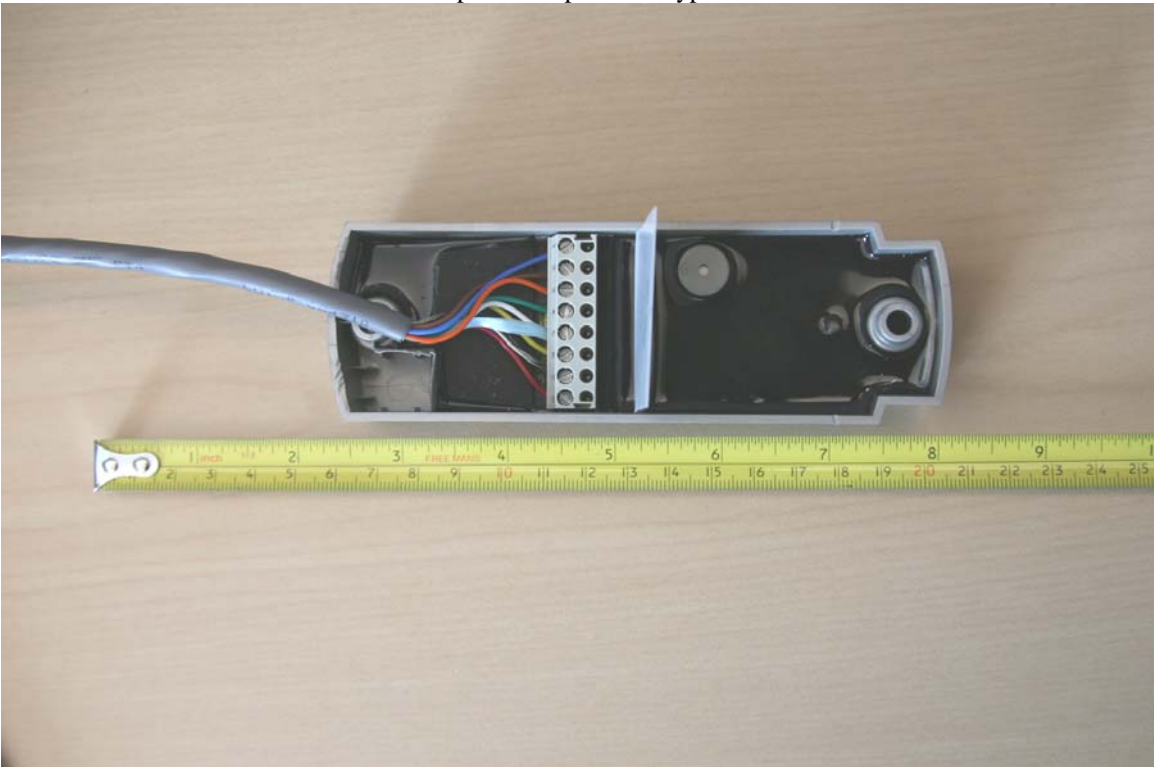

**External Photos (Mullion Reader)**

**8031D Shown – Identical to the 8101D – The only difference from the 8030D and 8100D = no keypad on front of unit**

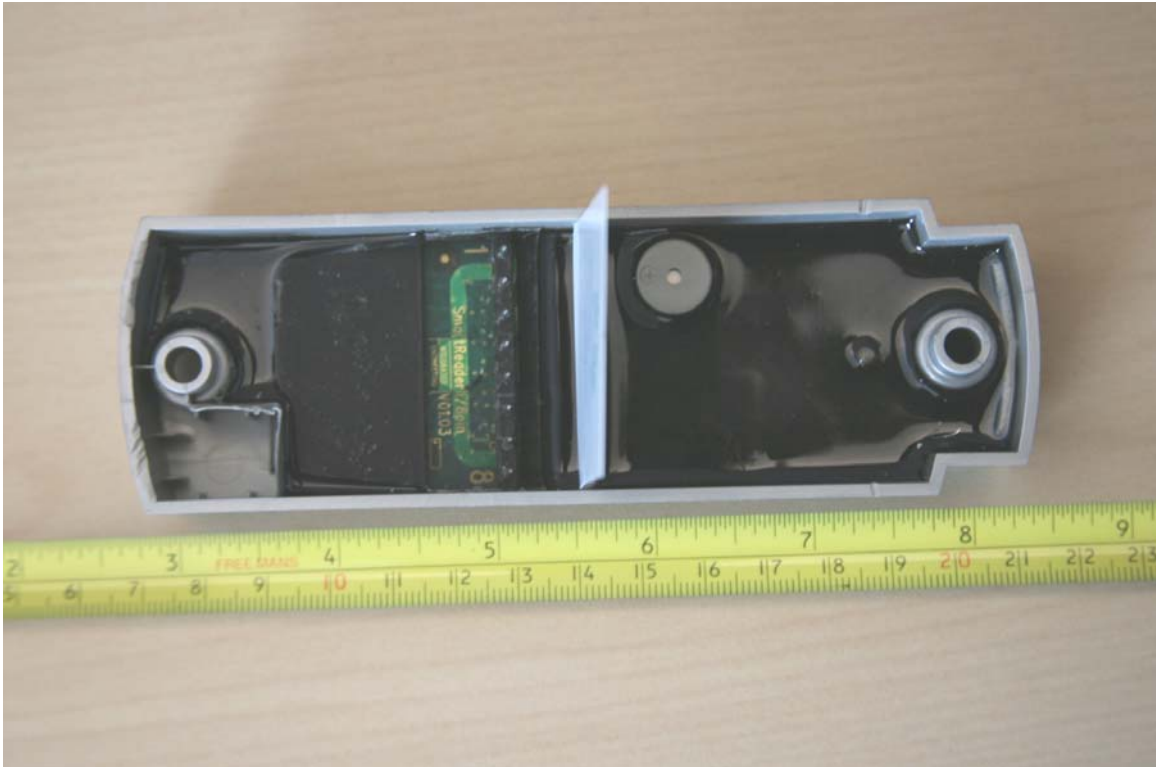

Top – with optional Keypad

Back

Back without connector

Side

Back showing label placement – Label is placed directly on the potting as shown above.

**DESK TOP PRODUCTS:**
