0.457, 0.459 Request that submitted material be withheld from Public Inspection

Product: 4045C EntryProx

It is requested the following materials be withheld from public inspection:

- Description of the EntryProx product, circuit functions, how the device operates.
- Block diagram.
- Schematic
- Antenna and ground system descriptions

These materials are considered HID Corporation Proprietary and Confidential.

Revealing the fundamental design for the product to the public and our competition would put us at a competitive disadvantage.

We feel we have a product cost/design advantage over our competition with the EntryProx product and therefore ask the above cited materials be withheld from public inspection.
