Randy:

I have received the Label Location Information and have been told that they are going to update their manual to reflect the changes. Please update the filing with the information herein and complete the process.

I am sorry that it is taking me so long to get everything finalized on this matter.

Thank you for all your time and effort.

Thanks,

Non-Conformities FCC ID: JQR0003 (Ref # E04-000031-2)

This item has not yet been closed for this application. ID Label placement on a removable portion of the equipment to be certified is inappropriate. Please update label location information.

Item 2. The label location listed in the users manual is inappropriate. Pursuant to 2.925, The FCC ID label must be affixed permanently to equipment; not attached to a removable part. Should the applicant so choose, a suitable alternative would be underneath the battery inside the battery compartment. Please provide an updated label placement.
