

Equipment Authorization Division
Federal Communications Commission

Request for Short Term Confidential Treatment of Exhibits to Application for Equipment Authorization for the JANUS® Multi-Protocol RF Module Smart product, proposed FCC ID: JQU802295A

On behalf of Kapsch TrafficCom Canada Inc ("Kapsch"), we request short term confidential treatment for the following exhibits filed with Kapsch's application for equipment authorization for the product model 802295, with FCC ID JQU802295A which is being filed concurrently:

USER MANUAL

INTERNAL PHOTOS

KAPSCH requests that this exhibit be treated as confidential and withheld from public inspection until the device is publically marketed in accordance with Section 0.457(d) (trade secrets) of the Commission's Rules, pursuant to Section 0.459(b) of the Commission's rules. KAPSCH competes with a number of companies that are developing and marketing products for the same market. The internal design of new products including, but not limited to, component selection, RF layout, mechanical and assembly approach, is considered a trade secret and is not publically provided outside of the company. The internal photographs disclose such detail. Pre-marketing disclosure of such information to competitors will compromise KAPSCH's competitive edge.

Sincerely,

Dated this 30 Day of April 2014
