Subject: Installation restriction (SIMPAS RFID R/W - FCC-ID: JUPSMSE013)

To whom it may concern:

The device "SIMPAS RFID R/W" (Part No. SMSE013) is only approved for installation on agricultural machines. The power supply from an AC source is not permitted. The system is designed to be operated only with 5 VDC supplied by a "SIMPAS Meter" ECU, which is operated on the 12 VDC board net of the machine. The FCC certification is invalidated if an AC main power supply is used."

Sincerely,

Jeff Mallari
