

## **Trimble DCM300G Wi2Wi module: Bluetooth Radio Disabled**

Topic: Bluetooth disabled in W2CBW009Di radio module

Trimble's DCM300G, uses Wi2Wi W2CBW009Di module for wifi communications. The module's Bluetooth ability is not a feature in the commercial release of this product.

DCM300G application firmware does not initialize the Bluetooth radio component and the Bluetooth device driver will not be loaded in production code releases.

Customer application firmware will not enable or include Bluetooth radio component, preventing users from being able to enable the Bluetooth radio feature themselves.
