DECLARATION OF SIMILARITY

April 17, 2008

To:
Bay Area Compliance Laboratories Corp.
1274 Anvilwood Ave.
Sunnyvale, CA 94089
Phone: 408-732-9162, Fax: 408-732-9164
<http://www.baclcorp.com>

Dear Sir or Madam:

We, Trimble Navigation Ltd, hereby declare that product: GeoExplorer2008 Model(s) XM and XT are electrically identical with the same electromagnetic emissions and electromagnetic compatibility characteristics as model XH tested by BACL, the results of which are featured in BACL project:R0803171.

A description of the differences between the tested model and those that are declared similar are as follows:

Model XM, XT: Both models use the same hardware for the processor unit and the same GPS receiver software that will receive L1 GPS signals centered at 1575.62 MHz; they differ primarily in the application software that they use.

Model XH: This model uses the same hardware for the processor unit, but the GPS receiver hardware is different as it will also receive L2 signals centered at 1227.60 MHz in addition to L1 GPS signals centered at 1575.62 MHz. This allows still higher performance when used with appropriate software.

Please contact me should there be need for any additional clarification or information.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Wallace", written over a horizontal line.

Greg Wallace

Director of Engineering
Mapping and GIS Division
