

CERTIFICATION OF TECHNICAL COMPLIANCE
JXB24X4P-08T

Part 101: Fixed Microwave Service

INTENDED USE OF THE DEVICE

Digital Microwave Corporation's intended use of the (JXB24X4P-08T) Series Radio is to provide state-of-the-art point-to-point 24 GHz Digital Electronic Messaging Service. When used in DEMS applications, individual, independent transceivers are used at the hub site with directional antennas to each remote site. The remote specifications apply to both ends of the radio.

This equipment has been tested in accordance with the requirements contained in the appropriate Commission regulations. To the best of my knowledge, these tests were performed using measurement procedures consistent with industry or Commission standards and demonstrate that the equipment complies with the appropriate standards. Each unit manufactured, imported or marketed, as defined in the Commission's regulation will conform to the samples(s) tested within the variations that can be expected due to quantity production and testing on a statistical basis. I further certify that the necessary measurements were made by Digital Microwave Corporation, 3325 South 116th Street, Suite 161, Seattle, WA 98168.

Very truly yours,

Patric McDonald
Chief Technical Officer
