RE: Request for Class II Permissive Change on FCC ID: K44378601

To Whom It May Concern:

We wish to achieve the following outcome, by way of a Class II Permissive Change, shown below.

Change frequency tolerance from ± 2.0 ppm to ± 1.0 ppm. There are no changes to the circuitry and the test data, reported when certification is granted, supports it.

Please contact me if you require any additional information.

Sincerely,

Tamaki Shimamura
