Letter of Attestation

Model: TH-255A Scanning receiver (FCC ID: K44408000)

This letter attests to the fact that Kenwood scanner receiver model TH-255A meets the requirements of the FCC Rules, 15.121(a). Compliance is achieved through the following method(s):

- (1). The Microprocessor employed has internal mask memory.
- (2). The Microprocessor is not to accept programming, selection, scanning or direct entry of Cellular band frequencies.
- (3). Filtering precludes reception of mixer images or harmonics of Cellular band frequencies.
- (4). Subminiature SMD assembly and inaccessible multiplayer PCB construction all but precludes attempts at circuit hardware modifications.
