**Subject:** RE: Questions Regarding FCC ID: K44415503  
Dear Mr. Czumak,

Please see the comments in blue texts below:

1. Pursuant to the FCC's Extended Frequencies policy, KDB 634817 (please see attached), please add the following alternative attestation statement to the current attestation letter justifying the extended frequency range, after the sentence, "It is understood that a grant note code may be added to the grant which indicates this required operation.":

In addition, we acknowledge that it is a violation of FCC rules if the device operates on unauthorized frequencies.

After adding this statement, please resubmit the letter. => [Please find the attached revised justify letter.](#)

2. Pursuant to Section 90.203(j)(3), please submit a statement attesting that the equipment meets a spectrum efficiency standard of one voice channel per 12.5 kHz of channel bandwidth. => [The test report on page 6 attests that the product complies with Section 90.203\(j\)\(3\). The product passed the requirements for 11K0F3E.](#)
3. FYI: because the EUT's minimum separation distance required for RF exposure MPE compliance was calculated based upon the Uncontrolled/General Population limits, it is not required that the EUT only be used in Controlled/Occupational environments. As a result, the label bearing the following statement may be removed from the EUT. => [Kenwood noted your comment. If it's up to Kenwood whether to remove a caution label or not, they would like to keep the current one.](#)

Best regards,  
Sae Hagino

**Subject:** Questions Regarding FCC ID: K44415503

To: Ms. Sae Hagino/ Intertek Japan K.K.  
From: Mr. Gregory Czumak / PCTEST TCB

RE: FCC ID: K44415503

Applicant: Kenwood Corporation

Correspondence Reference Number: K44Y101303

Confirmation Number: Y1010261303  
Date of Original Email: November 9, 2010

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. Pursuant to the FCC's Extended Frequencies policy, KDB 634817 (please see attached), please add the following alternative attestation statement to the current attestation letter justifying the extended frequency range, after the sentence, "It is understood that a grant note code may be added to the grant which indicates this required operation.":

[In addition, we acknowledge that it is a violation of FCC rules if the device operates on unauthorized frequencies.](#)

After adding this statement, please resubmit the letter.

2. Pursuant to Section 90.203(j)(3), please submit an statement attesting that the equipment meets a spectrum efficiency standard of one voice channel per 12.5 kHz of channel bandwidth.
3. FYI: because the EUT's minimum separation distance required for RF exposure MPE compliance was calculated based upon the Uncontrolled/General Population limits, it is not required that the EUT only be used in Controlled/Occupational environments. As a result, the label bearing the following statement may be removed from the EUT.

#### CAUTION:

Device must be restricted to occupational use to satisfy FCC RF exposure. See instruction manual for specific operating requirements.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,  
Gregory Czumak  
Senior Certification Engineer  
Quality Manager
