

3 Test setup photographs

3.1 Definition of the EUT axis

The following configuration is defined as X-Axis

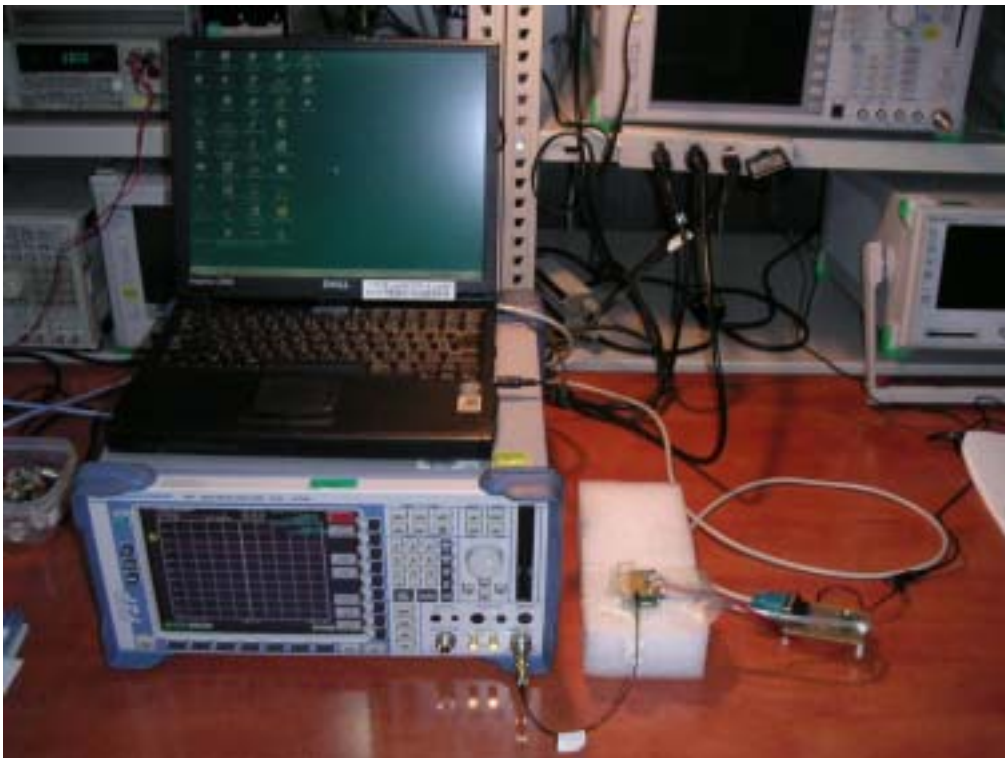

The following configuration is defined as Y-Axis

The following configuration is defined as Z-Axis

3.2 Antenna Port Measurements

3.3 Radiated spurious emissions

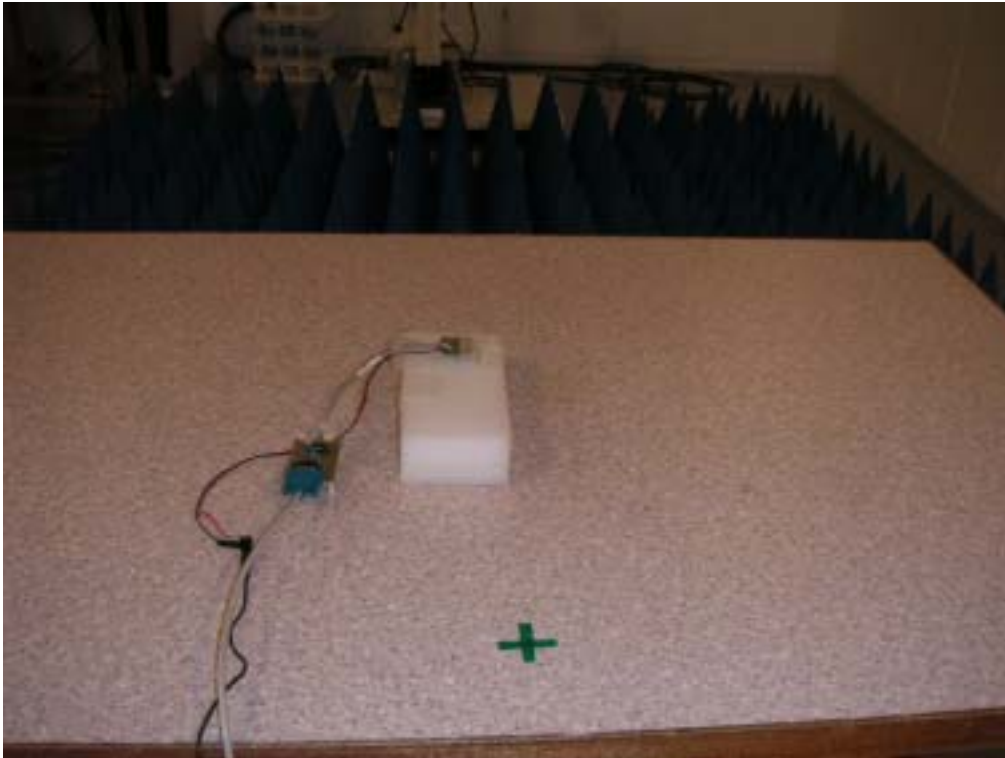

Below 30 MHz

Between 30 -1000 MHz

Above 1000 MHz

3.4 AC power line conducted emissions
