Re: VX-351-AD0B-5, and VX-354-AD0B-5 (FCC ID: K6610653020)

Gentlemen:

Vertex Standard Co., Ltd. requests acceptance of the labeling location proposal described below for transceivers bearing FCC ID: K6610653020.

The subject transceivers are compact, handheld models (as shown in the below photos) and there is no area to fit the label on the surface. Also, the surface area of the panel is of a rough texture and a label would not stay affixed.

VERTEX STANDARD CO., LTD.

4-8-8, Nakameguro, Meguro-ku, Tokyo 153-8644, Japan
Tel: 81-(0)3-5725-6122 · Fax: 81-(0)3-5725-6205

VERTEX STANDARD CO., LTD.

4-8-8, Nakameguro, Meguro-ku, Tokyo 153-8644, Japan
Tel: 81-(0)3-5725-6122 · Fax: 81-(0)3-5725-6205

Because the majority of the transceiver housing is composed of display, speaker, operating controls and a removable battery pack, there is limited space available to attach the required label that contains the FCC ID. The battery pack is removable so putting the label on the back is not an option. For this reason, we propose placing the label, which contains the FCC identifier inside the battery compartment as shown below:

The label will be readily visible at the time of purchase because the device will be marketed without the battery installed.

Should you have any questions regarding this, please advise.

Sincerely,

Vertex Standard Co., Ltd.

Mr. Moto Kurihara

Group Leader of Engineering Division
