Gentlemen:

We are requesting a Class II Permissive Change for our model numbers listed above with corresponding FCC Identifiers. These radios comply with the requirements of the FCC Part 15B regulations. The only change to the new model is the design of the panel. The basic frequency determining circuitry, including multiplication stages, are identical to the originally approved models.

Should you require additional information relating to these products, please do not hesitate to contact us. Thank you and we would appreciate your consideration.

Best regards,

Vertex Standard Co., Ltd.
